Ireland: Monthly Update

#### **England and Wales**

13,000 Penalty Notices for Disorder (PND) were issued in relation to nonnotifiable offences for the year ending September 2017, the majority of which related to drunk and disorderly behaviour.

#### **Scotland**

Consuming alcohol in a public place was the third most commonly issued Anti-Social Behaviour Fixed Penalty Notice (ASBPN) in 2017/18, making up 1/5 of all notices given.

#### **Northern Ireland**

Data is not held for exactly how many PNDs issued are related to alcohol, although there is one offence referring specifically to alcoholrelated behaviour – 'simple drunk' – for which 41 PNDs were issued in 2016.

# What are the public's perceptions of alcohol-related crime in England and Wales?

A survey examining the North West of England found that:

• 43% of respondents felt annoyed by people vomiting or urinating in the street after drinking

• 49.4% were kept awake by drunken noise

97% of Scots find alcohol abuse to be a problem, with 45–59-year-olds most likely to treat it as 'a big problem'

A bit of a A big problem (23%)problem (74%)Not a problem (2%)

Source: Scottish Crime and Justice Survey (SCJS) 2010/11, 'Data tables volume 1 – main survey – demographic breaks', p. 16

### What are the public's perceptions of alcohol-related crime in Northern Ireland?

Alcohol is the second most commonly identified major cause of crime in Northern Ireland

N.B. Percentages may add to more than 100 as respondents could select more than one cause.
